# ACCESSORY STRUCTURE

## ACCESSORY STRUCTURE REGULATIONS

### Accessory structures.

#### (a) *Setbacks.*

- (1) No accessory structure shall be located in front of a primary structure, except in the case of a garage. In those instances where a garage is located forward of the primary structure, the garage shall be of the same architectural style, color and facing material as the primary structure and shall be located 30 feet or more from the front lot line.
- (2) In no event shall an accessory structure be nearer than five feet to any lot line or rear lot line, and no nearer to any side street property line than the side street setback line for that particular lot.
- (3) In no case shall any portion of an accessory structure be located within four feet of the primary structure.
- (4) In no event shall an accessory structure be located on any easement.
- (5) If an accessory structure is 800 square feet or greater in area, it shall meet the following setback requirements:
  - a. The accessory structure shall not be located in front of the primary structure, except in the case of a garage. In those instances where a garage is located forward of the primary structure, the garage shall be of the same architectural style, color and facing material as the primary structure and shall be located 30 feet or more from the front lot line.
  - b. The accessory structure shall be no nearer than eight feet to any side lot line and 30 feet from any rear lot line.
  - c. In the case of a corner lot, no nearer to any side street property line than the side street setback line for that particular lot.

#### (b) *Number.* The number of accessory structures shall not exceed two per lot.

#### (c) *Height.*

- (1) No accessory structure shall exceed the height of the primary structure and in no event shall it exceed 35 feet in height.
- (2) The height of any point on an accessory structure shall not exceed the sum of the horizontal distance from the highest point of the accessory structure to the closest property line plus five feet and in no event shall the height exceed the height of the primary structure regardless of where the detached structure is placed on the lot.

#### (d) *Screening.* When an accessory structure is readily visible from any public place or street, it shall be required to be screened by bushes, shrubs, trees, fencing or other suitable material or device. In those instances where a garage is to be placed forward of the primary structure and the garage is the same architectural style, color and facing material as the primary structure then screening shall not be required. The screening requirement is to provide visual relief to the residential landscape and is not intended to completely obscure the accessory structure from view.

#### (e) *Other restrictions.*

- (1) No accessory structure shall be used for overnight sleeping accommodations on a permanent basis.
- (2) No accessory structure shall be used as residence.
- (3) No accessory structure located in a residential zoning district shall be used for business or commercial purposes.

## CHECK LIST:

(1) COMPLETED APPLICATION.

(2) DETAILED PROJECT SITE PLAN. THE SITE PLANS SHALL INCLUDE:

A. RIGHTS-OF-WAY & EASEMENTS

D. DRIVEWAYS, FIRE LANES, SIDEWALKS, STREET ENTRANCES AND EXITS
