PRESS RELEASE

For Immediate Release
October 29, 2020

CITY OF GULF BREEZE HURRICANE ZETA DAMAGE ASSESSMENT

The City has completed an assessment of damage as a result of Hurricane Zeta. Within the City, damage was minimal. The City experienced no sewer backups or loss of water pressure. A major water line break occurred at the intersection of Highway 98 and Autumn Breeze Lane at Grand Reserve impacting the water transmission line to the city. No service disruptions are anticipated at this time. To avoid a city-wide boil water notice, the City's water supply will come from ECUA until repairs are complete and water sampling concludes.

All City offices and services are operating as scheduled. The Gulf Breeze EOC deactivated as of noon, today.

FEMA's Mobile Disaster Recovery Center at the Gulf Breeze Community Center will resume operations on Friday, October 30.

Residents may notify the City of any outstanding issues through the citizen work request form at <https://cityofgulfbreeze.us/contactus/> or 850-934-5100.
