CITY MANAGER BRIEF

Mayor and Members of the City Council:

The Office of the City Manager is pleased to present the Capital Improvement Plan (CIP) for fiscal years 2022-2032. This is the fifth annual update to the 10-Year CIP first drafted fiscal year 2017. The CIP serves as a long-range planning tool used to help the City match revenues with major capital (items/projects with a unit cost over \$25,000) needs over a ten-year period. The Ten-Year CIP encourages outside agencies to collaborate on funding opportunities and phased long-term City priorities. Fiscal year 2021 projects are included in the operating budget that the City Council adopted on September 9, 2020. Subsequent fiscal year projects are unfunded and presented for planning purposes only.

MAJOR FACTORS IMPACTING CAPITAL PLANNING

Revenue - All budgets are constrained by available revenues. Capital projects are prioritized so that available funds are allocated based on need, Council priority, and their impact on service provision. Gulf Breeze is a largely built-out community lauded for its superior city services. General Fund revenues are expected to remain flat, with sales tax and millage rate projections remaining approximately the same as the last two years, yet needs for infrastructure improvements grow. Funds for capital maintenance also rely on enterprise funds from the City's "business-like" services such as natural gas, water, and sewer. Other major capital projects will require grants, state and federal appropriations, government bonds, or other long-term borrowing.

Enterprise capital projects are funded by their respective enterprise revenues, such as the Water and Sewer Fund and Stormwater Fund. Additional capital projects selected by the Council will be funded, in part or in whole, by funds derived from non-recurring payment sources such as from the sale of surplus lands, grants, and the American Rescue Plan Act.

The Ten-Year Capital Improvement Plan extrapolates projects directly from the City's Comprehensive Plan, Strategic Plan, and the Community Redevelopment Area Plan Update. These projects include four key areas which focus on community resiliency.

Transportation: A number of transportation projects are underway across the City. Funding has been provided for fiscal year 2021 to continue the City's paving and resurfacing plan, road sign replacement program, sidewalk maintenance and expansion, and the two matching grant streetscape improvement projects within the Community Redevelopment Area (CRA).

Technology: In today's world, citizens expect their City to be technologically adept. The City recently completed an energy efficiency program, replacing lights with energy-efficient upgrades, as well as upgrading all electric water meters with radio-read smart meters and a smart grid. The Ten-Year CIP reflects a continued commitment to technological advances with projects such as automating controls and monitoring of wastewater treatment operations, utilizing supervisory control and data acquisition

(SCADA) for remote monitoring of lift stations, and utilizing digital storage for online security and transference of records and evidence. The Ten-Year CIP also addresses IT through periodic server upgrades at City Hall and the installation of a new security system at the Recreation Center.

Maintenance of City Facilities and Assets: Buildings require renovation and large equipment items require maintenance and replacement. This CIP includes funding for refurbishing of recreation gym flooring and tennis courts, the design and construction of a city splash pad, the replacement of a recreation truck, a fire chief responder truck, renovation of city hall offices within the Community Services and Finance Departments, replacement of police cars, new police laptop computers, expansion of the wastewater treatment plant, fire hydrant replacements, potable water plant improvements, water main and sewer main improvements, and natural gas maintenance and expans 10 ns.

Environmental Protection and Green Space: The CIP continues to prioritize stormwater run-off hazards and environmental impacts through the replacement of stormwater culverts, waterline replacements related to infrastructure changes, and maintenance projects. The City continues to partner with Santa Rosa County and Gulf Power on environmental projects which address natural seagrass replacement and protection, shoreline erosion, and the replenishment of Deadman's Island. Additionally, the Council may allocate funding for the City's new and voluntary Septic Tank Elimination Program (STEP), to continue to address water quality and protect commercial and recreational fishing and oyster gardening.

An additional concern addressed in the FY 2021-22 budget is aging infrastructure that has been identified as a significant risk to the future of development and the character of the City and surrounding unincorporated areas. The City Council has approved a funding plan to address the deferred maintenance experienced in the previous decade funded from the sale of properties including most of the current and former two golf courses at Tiger Point and two effluent reuse site spray fields.

FIRST-YEAR (FY 2016-17) CIP PROJECT RECAP

A total of \$2,959,689 in capital projects were completed for FY 2017. Major FY 2017 first-year project highlights can be found below. Full descriptions for all programmed capital projects are found within this CIP document.

Fire Protection: \$32,041 for the second and final year of radio upgrades.

Parks & Recreation: \$356,795 which includes the initial cost for repairs of the Shoreline Park waterfront gazebos and Deadman's Island restoration.

Streets and Drainage: \$590,223 for the resurfacing of city roads as prioritized in the City's pavement plan.

Law Enforcement: \$123,764 includes two fully equipped Police Ford Explorers.

City Water and Sewer: \$266,724 for hydrant upgrades/replacements, major water plant improvements, and a new ground penetrating radar (GPR) unit.

Natural Gas: \$98,342 covered new equipment, a vehicle purchase, and building repairs.

South Santa Rosa Utility System: \$1,471,251 for the construction of an elevated reclaim tank, WWTP automation, rehabilitation of lift stations, sewer main replacement, and a new vehicle.

SECOND-YEAR (FY 2017-18) CIP PROJECT RECAP

A total of \$4,217,684 in capital projects were completed during FY 2018. Major FY 2017-18 project highlights can be found below. Full descriptions for all programmed capital projects are found within this CIP document.

Fire Protection: \$472,342 for the replacement of two vehicles: the 30-year old reserve engine/pumper and the fire chief vehicle.

Parks & Recreation: \$791,811 which includes repairs of waterside gazebos at Shoreline Park, the extension of Shoreline Park trails, the installation of the Sunset Park splash pad, and a new indoor sports practice facility.

Streets and Drainage: \$103,997 for the resurfacing of city roads as prioritized in the City's pavement plan.

Law Enforcement: \$236,234 which provides for two fully-equipped Police Ford Explorers, laptop computers, a dispatch server, and the design for a new police department building.

CRA: \$423,511 for the US98/SR399 Beautification Project and the design of the Daniel/Joachim Streetscape Project.

City Water and Sewer: \$410,458 which includes the relocation of utility lines adjacent to the Pensacola Bay Bridge, lift- station rehabilitation, sewer main upgrades, a new crane truck, and water plant improvements.

Natural Gas: \$195,062 which includes vehicle purchases, machinery/equipment, and the bridge cathodic protection system.

South Santa Rosa Utility System: \$1,320,037 which includes west course maintenance equipment, west course drainage improvements, a new crane truck, portable pumps, lift-station rehab, and the initial costs of expanding the Wastewater Treatment Plant.

Stormwater: \$232,883 for the final design of the Bear Drive Stormwater Upgrade and preliminary designs for both the Gilmore Basin and East Basin Stormwater Projects.

THIRD-YEAR (FY 2018-19) CIP PROJECT RECAP

A total of \$6,166,233 in capital projects were completed during FY 2018-19. Major FY 2018-19 project highlights can be found below. Full descriptions for all programmed capital projects are found within this CIP document.

Fire Protection: \$70,000 for the replacement of support vehicles for the department's water rescue and hand-held radios.

Parks & Recreation: \$253,112 which included funding for gym floor refinishing, turf maintenance equipment, the completion of the Dog Park at Shoreline Beach, and the continued implementation of the Blue Ways Plan.

Streets and Drainage: \$520,400 for the resurfacing of city roads as prioritized in the City's pavement plan.

Law Enforcement: \$180,000 which provides for two fully-equipped police cruisers and hand-held radios for the department.

CRA: \$684,005 for the Daniel/Joachim Streetscape Beautification Project, the annual CRA resurfacing program, and school zone median flashers.

City Water and Sewer: \$115,062 which includes funding for a field operation building and infiltration/main replacements.

Natural Gas: \$480,000 which includes vehicle purchases, regulator station upgrades, US 98 Bay Bridge utilities relocation, machinery/equipment, and funding for Sabine Crossing.

South Santa Rosa Utility System: \$3,176,049 which includes water main upgrades, vehicles, lift station rehabilitation, and wastewater treatment plant upgrades.

Stormwater: \$386,955 for the final design of the Bear Drive Stormwater Upgrade and preliminary designs for both the Gilmore Basin and East Basin Stormwater Projects.

FOURTH-YEAR (FY 2019-20) CIP PROJECT RECAP

A total of \$10,167,822 in capital improvements are proposed for FY 2019-20.

General Government/Internal Services: \$295,000 for City Hall which includes office and restroom renovations, fuel tank replacement, and IT upgrades.

Fire Protection: No capital expenditures are proposed for FY 2020.

Parks & Recreation: \$300,694 which includes funding for a vehicle, security camera system improvements, Highpoint Tennis Court reconstruction, the planning and design of nature trails expansion, and implementation of the Blueways Plan.

Streets and Drainage: \$1,240,000 for the resurfacing of city roads as prioritized in the City's pavement plan.

Law Enforcement: \$500,000 provides for two fully-equipped police vehicles and funding toward the construction of the new police department building.

CRA: \$1,319,128 for the Multi-Use Path (CRA section), Andrew Jackson Streetscape, CRA annual resurfacing program, school fence repair, and the façade grant program.

City Water and Sewer: \$75,000 for improvements to existing lift stations.

Natural Gas: \$676,000 which includes building renovations, US 98 Bay Bridge utility relocation, the purchase of an excavator, vehicle purchase, and additional machinery and equipment.

South Santa Rosa Utility System: \$3,002,000 which includes Tiger Point East Course irrigation system, reclaimed water system expansion, wastewater treatment facility interim improvements and expansion, lift station improvements, Maplewood & Circle Drive main replacement, I & I improvements, continued improvements to Gulf Isles lift station, and portable pump generator.

Stormwater: \$2,760,000 for the construction of Bear Drive Stormwater Upgrade, the construction of the East District stormwater project, and the purchase of a 6" portable pump.

FIFTH-YEAR (FY 2020-21) CIP PROJECT HIGHLIGHTS

A total of \$6,443,874 in capital improvements were proposed for FY 2020-21. Unfinished projects from the previous year carried forward for an amended budget of \$10,448,317.

General Government/Internal Services: Anticipated server replacement and the completion of the FY 2019-20 bathroom project for \$37,878

Fire Protection: Anticipated expenditures of \$27,932 for equipment and training devices.

Parks & Recreation: \$16,000 for grounds maintenance equipment are budgeted and anticipated for expenditure in this fiscal year.

Streets & Stormwater Special Revenue Fund: FY 2020-21 brought about the merging of the Streets department with the Stormwater fund for a single special revenue fund of \$1,240,000 for the resurfacing of city roads as prioritized in the City's pavement plan. Additionally, the Multi-Use Path was moved to this fund, with over \$3 million in funding through taxes, Capital Trust Agency (CTA), and CRA contributions. Along with miscellaneous equipment, the total projected capital budget expenditures are \$4,422,543.

Law Enforcement: The demolition of the former fire department building was completed as a prelude to the future new police department building. The department planned to purchase two new squad cars, but this is delayed by suppliers. The department did equip the two Durangos purchased in the previous fiscal year, bringing the total expected expenditures to \$436,136.

CRA: \$928,034 for the Multi-Use Path (CRA section), CRA annual resurfacing program, improvements to the Shoreline/Gulf Breeze Intersection, school zone flashing signals, and replacement of traffic signal generators.

City Water and Sewer: Funding of \$37,298 for FY 2020-21 is projected for miscellaneous equipment and the Shoreline/Eufaula low pressure sewer system.

Natural Gas: Focus on additional mains for \$40,000 along with upgrades to the pressure regulating stations and the equipment required for main installation and system maintenance brings the total expected capital budget to \$475,384.

South Santa Rosa Utility System: The total amended capital budget for FY 2020-21 of \$1,966,245 includes the continued design and loan application for the expanded Tiger Point Wastewater Treatment Facility, the design of the Soundside Drive Septic to Sewer project (grant funded), completion of water main and lift station replacement projects and equipment

replacements.

PROPOSED BUDGET YEAR (FY 2021-22) CIP PROJECT PLAN

A total of \$14,372,509 in capital improvements are proposed for FY 2021-22 budget.

General Government/Internal Services: No capital expenditures proposed in this budget. Not all projects listed in the CIP for FY2022 are yet included in the proposed budget as of the drafting of this plan. These parks projects rely on grant awards which are anticipated but not yet received: Wetlands Boardwalk, Recreational Fishing Upgrades, and Synthetic Turf.

Fire Protection: Budgeted \$60,000 for replacement AEDs and a compressor for refilling self-contained breathing apparatus.

Parks & Recreation: \$20,000 for equipment and \$15,000 for a reader board at the Community Center are included in this budget. The reader board will be partially funded by Gulf Breeze Sports Association.

Streets & Stormwater Special Revenue Fund: The FY 2021-22 budget proposes the construction of the Gilmore Basin project which includes partial grant funding for the Eufaula Outfall portion of the work. This project comprises \$1,800,000 of the total \$4,333,634 proposed budget. The Loop (Multi-Use Path) is \$1,456,029 in FY 2022. Other items included are resurfacing costs, and miscellaneous heavy machinery and equipment.

Law Enforcement: For the construction of the new Police Department, and the purchase dispatch servers and replacement vehicles, the budget is at \$2,440,500.

CRA: The budget of \$313,000 includes resurfacing, right of way beautification and the Daniel Circle Streetscape project.

Gulf Breeze Regional Water System: This proposed budget for FY 2021-22 of \$4,943,940 includes the expenditure of funds generated from the sale of property to complete delayed replacement of aging infrastructure and required improvements to existing facilities.

Natural Gas: The natural gas expansion is again the focus of this budget. The demand for clean energy continues, with \$150,000 devoted to main extensions and \$142,000 to the equipment to install and properly maintain the natural gas system, for a total budget of \$292,000.

CONCLUSION

The following pages of this document provide additional detail on the projects listed above as well as those in future planning years. This document is considered a "living" document that serves as a planning guide and will be adjusted as existing projects change and new needs arise.

Respectfully submitted,

Samantha D. Abell City Manager

DEFINITION, POLICIES & PROCESS

DEFINITION OF A CAPITAL PROJECT

- 1. Cost should be \$25,000 or more for the life of the project (budget policy set by Council).
- 2. Commonly will take more than a single year to complete.
- 3. Project revenues and expenditures should be clearly identified and balanced (e.g., revenue should equal project expenditures).
- 4. Projects should have an identifiable schedule that includes a beginning, intervening milestones, and an end.
- 5. Maintenance costs to increase the life of the City's infrastructure, replacement costs for infrastructure, and reserves for future projects are not defined as a CIP but are included in the CIP budget document. Examples of these include:
 - Pavement maintenance
 - Stormwater run-off improvements
 - Fleet Maintenance Facility

PRIMARY-SECONDARY PROJECTS - DEFINED

The CIP frequently contains several projects that are similar in nature. For example, Public Services often proposes projects to replace or upgrade water mains. Each neighborhood and/or commercial location is formally a separate project, and funding may not be moved from one waterline project to another waterline project without City Manager authorization.

The CIP may categorize similar projects together in a "primary-secondary" relationship. Following the waterline example, "Waterline Replacement" is the "primary" project, with individual "secondary" projects dedicated to each specific area where a project will be performed. The primary project description may include a description of each of the secondary projects related to it.

The primary project serves as the budgetary control device within the CIP. The City Council authorizes transferring unspent funds from one secondary project to another secondary project, as long as the overall primary project budget does not change. This approach allows for greater flexibility and efficiency when programming multiple CIPs of the same type.

PROCESS

Existing projects are reviewed annually. This review compares user status and financial information to identify project progress and completion. This will be integrated into the budget proforma review process.

The City Manager's Office and Finance Department will work with the CIP project managers to develop CIP revenue forecasts for the budget year. This analysis will be compiled and distributed by the City Manager's Office and/or Finance Department to the appropriate project managers.

The City Manager's Office and Department Heads will review and prioritize all existing CIPs to assure consistency with the City's Master Plan, Community Redevelopment Agency Plan, and Comprehensive Plan.

The City Council will review new projects and approve the re-appropriation of funds for existing projects as part of the annual budget cycle.

POLICIES

CIP Projects - Large construction projects, equipment purchases, infrastructure maintenance, replacement costs, and future reserves will be included in the Capital Improvement Program.

CIP Purpose - The purpose of the CIP is to systematically plan, schedule, manage, monitor, and finance capital projects to ensure cost-effectiveness as well as conformance with established policies. The CIP is a ten-year plan organized into the same functional groupings used for the operating programs. The CIP reflects a balance between capital replacement projects that repair, replace, or enhance existing facilities, equipment, or infrastructure; and capital facility projects that significantly expand or add to the City's existing fixed assets.

Project Manager- Every CIP project has a designated project manager who prepares the project proposal, ensures that required phases are completed on schedule, authorizes all project expenditures, ensures that all regulations and laws are observed, and periodically reports project status.

Projects may be appropriated for anticipated revenues but cannot be spent until revenue documents have been received. Each proposed CIP project will include the approximate location, size, completion date (est.), and estimate of costs and source of funding such as General Fund, Capital Facility Fees, Federal or State Grant, etc.

CIP Appropriation -The City's annual CIP appropriation for study, design, acquisition, and/or construction is based on the projects designated by the Council through adoption of the Budget. **Adoption of the CIP appropriation does not automatically authorize funding for a specific project phase.** Project engineering and preliminary engineering will be appropriated at the time of Council action.

Authorization for construction generally occurs only after:

- The costs for the phases have been fully developed;
- A grant is awarded, and a copy of the award is received in Finance;
- A contract is granted after a competitive bid process; and
- A request for proposal (RFP) is approved by Council.

Actions involving any Federal or State funded CIP are restrained by the conditions of the grant.

Accordingly, if contract costs at the time of bid award are less than the budgeted amount, the unobligated balance will either be re-appropriated to project contingency or returned to fund balance. This action should be clearly explained in the fiscal impact section of a Council document and include an estimate for City engineering costs and required contingency to complete the project.

If project costs at the time of bid award are greater than budget amounts, four options are typically available:

- 1. Eliminate the project;
- 2. Defer the project for consideration to the next Budget cycle;
- 3. Re-scope or change the phasing of the project to meet the existing budget; and
- 4. Appropriate additional resources as necessary from fund balance or other revenue sources.

For new CIP projects outside of the adoption process, resources need to be identified:

- Is there a sufficient fund balance or monitored cash flow?
- Has an invoicing procedure been established?
- If sufficient funds are not available, lower priority projects may need to be eliminated and
 the budget for that project returned to fund balance and then re-appropriated to the higher
 priority project.

Project Status - Project milestones will be listed as objectives in the program narratives to facilitate project tracking.

CIP PROJECT REPORTING AND UPDATE PROCESS

- Cost Estimates/Actuals by Phase
- Schedule (Timeline)
- Accounting Procedures/Revenue Tracking/Grant Invoicing/Project Closeout Procedures
- Timely Status Update Reporting (Note: Cost overruns and funding needs to be determined early. Updated costs and postponed timelines flag potential funding issues.)

PROJECT INFORMATION DETAILS

Project Types:

E-Equipment

B-Buildings

I-Infrastructure

O-Other

Funding Sources:

A - Appropriation/Grant

B - Bond

CRA - Community Redevelopment Agency

CTA - Capital Trust Agency

EC - Escambia County

FDOT - FL Department of Transportation

GBFS - Gulf Breeze Financial Services

IF – Impact Fees

L-Loan

LOGT - Local Option Gas Tax, ½ cent charged as a tax per gallon of gas

LOST - Local Option Sales Tax, 1/2% charged as a tax on sales of goods and services

MSBF - Municipal Services Benefit Fund, also referred to as a special assessment and charged as a fee to those residents receiving the benefit of the improvement

PAF - Police Assets/Forfeitures

PPP - Public/Private Partnerships/Endowments

RC - Reserved Capital – monies specifically designated for specific capital projects or categories

RL - Red Light Camera Fund – proceeds generated from the red light camera citations are specifically dedicated to public safety.

SRC - Santa Rosa County

SRF – State Revolving Funds loans

UFT – User Fees and Taxes

WC - Working Capital

CAPITAL IMPRVEMENT PLAN PROJECTS DETAILS

GENERAL FUND

General Government

CITY HALL RESTROOMS Buildings

Improvements necessary for enhanced customer service, efficiencies and storage needs for the Community Services Department, Finance Department, Council Chambers and break room. The Community Services Department was completed in FY 2017. The renovation of the kitchen and Utility Billing office was completed in FY 2018. FY 2019 included the replacement of the City Hall roof. FY 2020 included exterior structural renovations of the City Hall building and the renovation of the building's public restrooms.

PC/ SERVER REPLACEMENT

Equipment

Each year, the city budgets the cost of the main server and multiple computers to ensure timely replacement in the event of an unexpected loss. The City anticipates replacing the server once every four years.

Parks & Recreation

SECURITY CAMERA SYSTEM UPGRADE

Equipment

A security camera system upgrade for Parks & Recreation Department at the Recreation Center. Old camera system has outlived its useful life. The new security camera system will provide much better coverage and will aid in providing increased security and decreased vulnerability to liability.

Law Enforcement

NEW POLICE DEPARTMENT BUILDING AND DESIGN/REDESIGN

Buildings

The City's police department is a one-story ranch-style building built in the mid-1980s. Over time, legal mandates have increased regarding the procedures for storing evidence and safety assets, and sequestering persons in police custody. The police department building has inadequate space for the storage and inventory of evidence, and design challenges for ensuring confidentiality and safety during investigations and processing. Currently in the design phase, a professional architect is drafting conceptual options for the expansion and/or renovation of space at the existing Fairpoint Dr location. The project has been expanded to include the relocation of the Utility Billing Department. The request for qualifications to select a contractor manager at risk with a guaranteed price has been completed. The contract will be presented to City Council and the project should be completed in FY 2022.

Law Enforcement

HANDHELD RADIOS Equipment

Santa Rosa County pays for the radio system for full-time officers. The purchase of radios for part-time officers must be paid for by the City. For FY 2019, Council approved funding for five new radios at \$5,000 each. The initial cost and replacement cost for five handheld radio totals \$50,000.

Fire Control

AUTOMATED EXTERNAL DEFIBRILLATORS (AEDS) FOR EACH TRUCK

Equipment

The purchase of ten (10) AEDs to replace existing out of date models in each Fire Department truck to enhance the response time in medical emergencies. The current AEDs were acquired through a grant received and supported by Santa Rosa County, which has terminated its support for that model and switched brands. The cost to maintain the existing brand has become exorbitantly high with replacement batteries for the units priced at \$400 each. The proposed unit batteries are half the price at \$200 each.

Fire Control

REPLACEMENT OF RESERVE ENGINE/PUMPER

Equipment

Replacement of a 1986 Pierce Lance reserve pumper. The 1986 pumper truck became a reserve when the City purchased a new Pierce Dash in 2007, as the 1986 model was no longer fit for frontline service due to high cost of maintenance and NFPA standards for an enclosed cab. The reserve pumper truck has now reached 46,441 miles and is no longer financially prudent to maintain as a backup.

Community Center

GYM FLOOR REFINISHING

Buildings

Scheduled for 2019 and 2024. Routine maintenance of hardwood gym floors requires complete sanding, repainting and refinishing at 5-year intervals. The last refinish was accomplished on 2013. The two gyms at the Community Center experience very heavy use. Cost is \$12,500 per gym per refinish. This project is being modified in to include a protective cover for this floor,

DANIEL/JOACHIM STREETSCAPE BEAUTIFICATION

Infrastructure

In October of 2017, the Gulf Breeze Community Redevelopment Agency and City Council approved a streetscape project for Daniel and Joachim Drive, recognizing Daniel's function as a feeder street for local traffic flow in the town center. This project includes streetscape improvements and public amenities to foster a cohesive theme that will highlight the distinct character of the City. The project will implement the Community Redevelopment Area and Central Business District standards from the City's design guidelines. Improvements include pedestrian lighting, curbing, paving, striping, ADA compliance, crosswalks, sidewalks, benches, signage, landscaping, irrigation and parking enhancements. The project was completed in FY 2020.

FIVE-YEAR MAINTENANCE DREDGE PROGRAM

Other

Routine dredge maintenance for local bayous. The bayous have not regularly been maintained, and usually undertaken by an association of residents. In order to provide a more routine maintenance and to make the bayous eligible for disaster relief funding, the maintenance program is required.

BEAR DRIVE DRAINAGE Infrastructure

Replacement of the 30-year-old drainage system on Bear Drive and a portion of Florida Avenue including the upsizing of pipes and replacement of inlets. The design portion was completed in FY 2018-19 and construction started in April of 2020 with a contractual end date of August 2021. The project also includes the Loruna/Poinciana and Poinciana projects identified as priority concerns as well as two minor projects on Hillcrest Avenue and 310 Florida Avenue.

GILMORE BASIN / EUFAULA OUTFALL

Infrastructure

This project consists of installing a gravity system to serve the Gilmore Drive and San Carlos Avenue areas. The new system will tie in to the future Eufaula Outfall Treatment system. The design phase of the project began ahead of schedule in FY 2018 and was completed in FY 2019. The construction will occur in FY 2022. This project also includes the installation of a vortex sediment collector for treatment of the water prior to discharge to the canal. Approval has been received from the US Treasury Department for a matching RESTORE grant in the amount of \$373,500.

EAST WATER PLANT UPGRADE, SRF AND DESIGN (CHEM FEED)

Infrastructure

This facility will be completed in conjunction with the Field Operations Facility expansion. This building will provide the proper facility to add lime, orthophosphate and other treatment chemicals to the potable water system to insure compliance with potable supply regulations.

FIELD OPERATIONS FACILITY EXPANSION

Infrastructure

The current facility has been in existence since 1996. The office and storage space are inadequate for the current level of staffing required. Adequate break room, restroom and shower facilities will included in the facility expansion, as well as a chemical feed system, added paving, and the required stormwater drainage facilities.

EASTERN COLLECTION SYSTEM CAPACITY IMPROVEMENTS

Infrastructure

Using the results of the modeling project, the City will develop improvements to create master lift stations and increase the capacity of the existing pressurized collection/transmission system in the eastern part of the system. The original mater plan included splitting the main when the second treatment facility was constructed. The City has elected to purchase property to expand the existing facility, so improvements are need to maximize the capacity of the existing infrastructure.
