PRESS RELEASE

The City of Gulf Breeze was alerted yesterday to an accidental cross connection between a Midway Water System water main and a residential sewer line. As a result, a mandatory boil water notice has been issued for all Midway residents between 4115 Soundside Dr and 5012 Soundside Dr. This includes Natures Cove and The Waters subdivisions and all adjacent streets. Samples taken recently and prior to the discovery showed no signs of bacteriological contamination to the water supply, however, the boil water order is in effect until Thursday, Oct. 21. The order does not impact other residents of Gulf Breeze.

The cross-connection was discovered approximately 2 p.m. Monday near Soundside Drive, and repairs were made immediately. The Gulf Breeze Regional Water system is conducting a thorough investigation of the incident's cause. Initial reports indicate that a contractor working for a private residence made a connection of a sewer service line from a single home to a Midway Water System water main. The Midway Water System will post up-to-date information on its website <https://link.edgepilot.com/s/64d5a1e2/bVR2F6Tswkm6DPysrVM-Dg?u=http://midwaywater.com/> or customers can call (850) 932-5188.
